

VISTA Framework - Accelerated AI Use Case Discovery & Value Realization

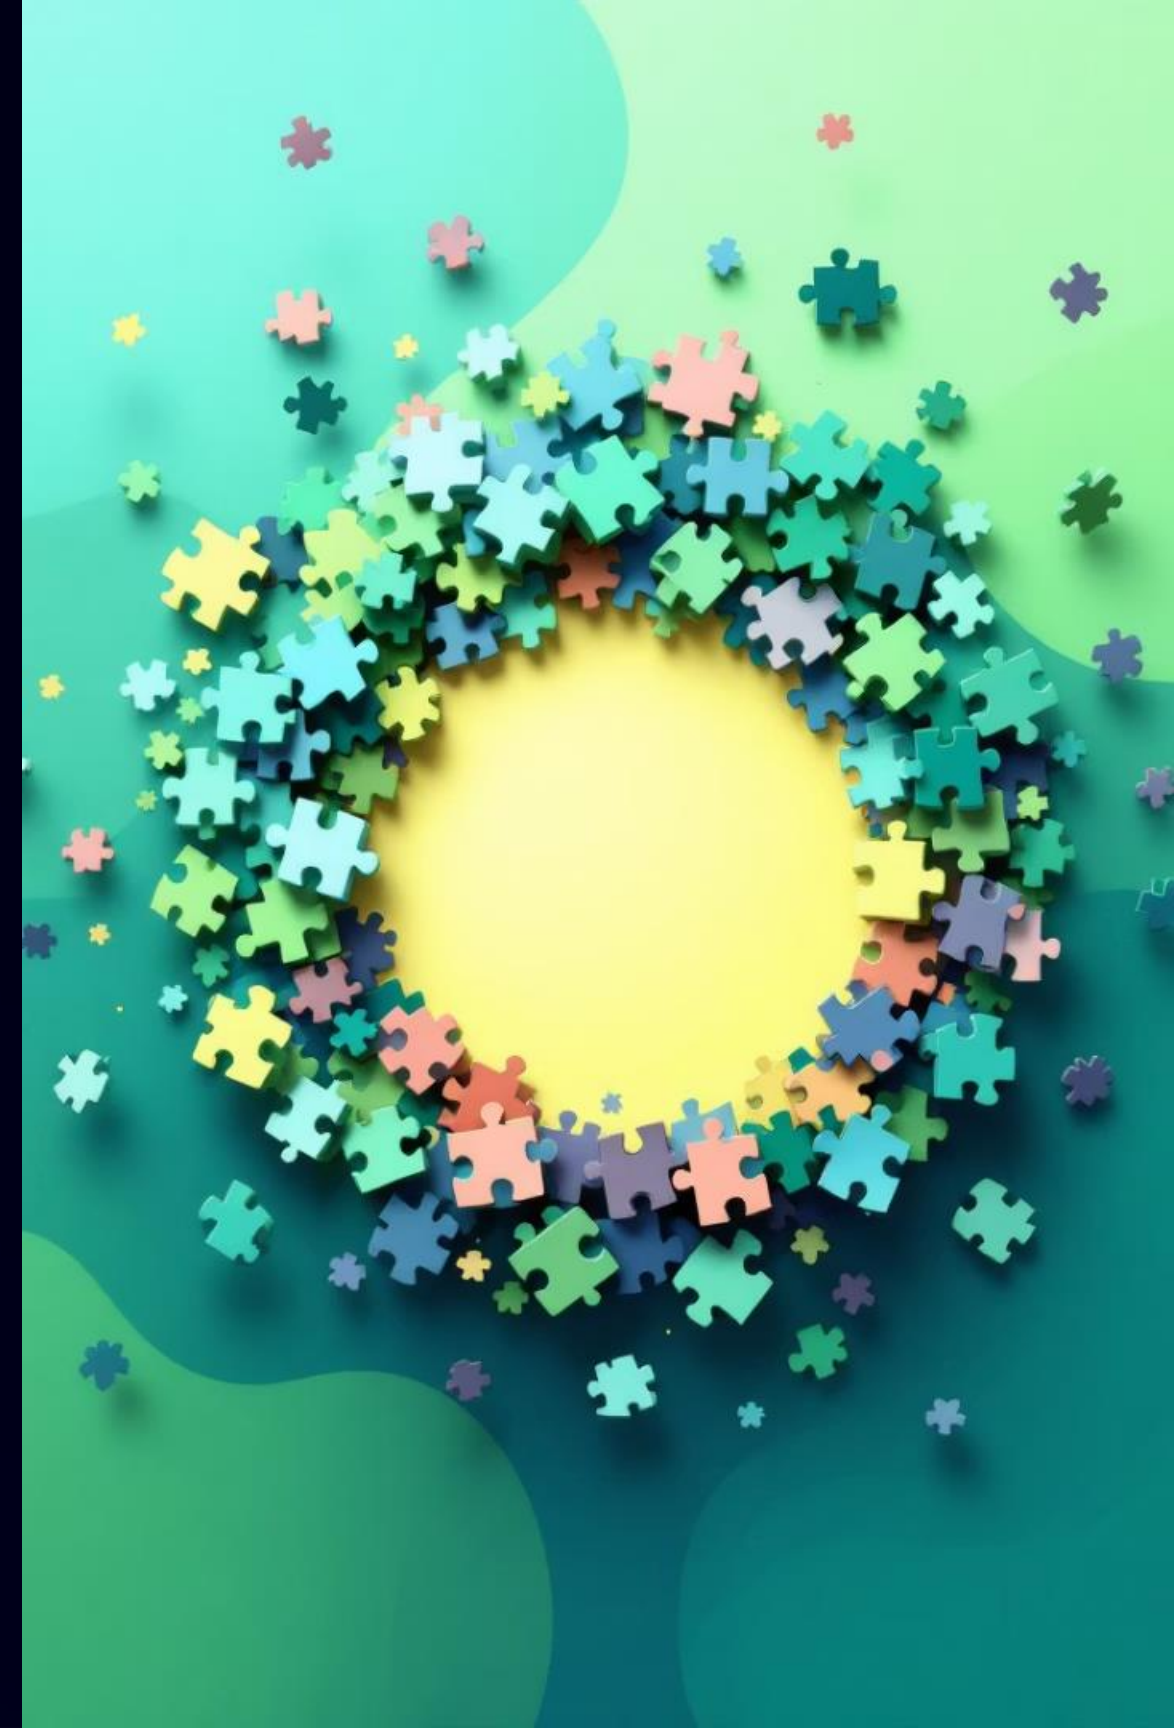

Helping Enterprises Unlock Business Value from AI & GenAI

The Need for Structured AI Exploration

Most organizations recognize AI's potential, but:

- Lack clarity on where to apply it
- Struggle with aligning AI to business outcomes
- Face delays due to lack of use case prioritization

Why AI Use Case Discovery Is Hard and Why It Matters

AI adoption is accelerating—but most organizations struggle to move from ambition to impact.

Without a structured approach :

- Identifying AI use cases is time consuming
- Hard to Prioritize based on value
- Hard to link ideas to ROI and feasibility
- Difficult to move faster to stay competitive

Where can I apply AI

Which one first?

Can we build this now?

Competitor just launched something!

When can I finish?

Introducing the VISTA Framework

VISTA is our structured, AI-powered framework designed to accelerate discovery, prioritization and validation of high-impact AI and GenAI use case

From insight to action — in days, not months.

How VISTA Works

VOYAGE

Understand context & gather signals

INVESTIGATE

Agentic AI simulates potential use cases

SURVEY

Map ideas to business goals & domains

TARGET

Prioritize by impact, feasibility, readiness

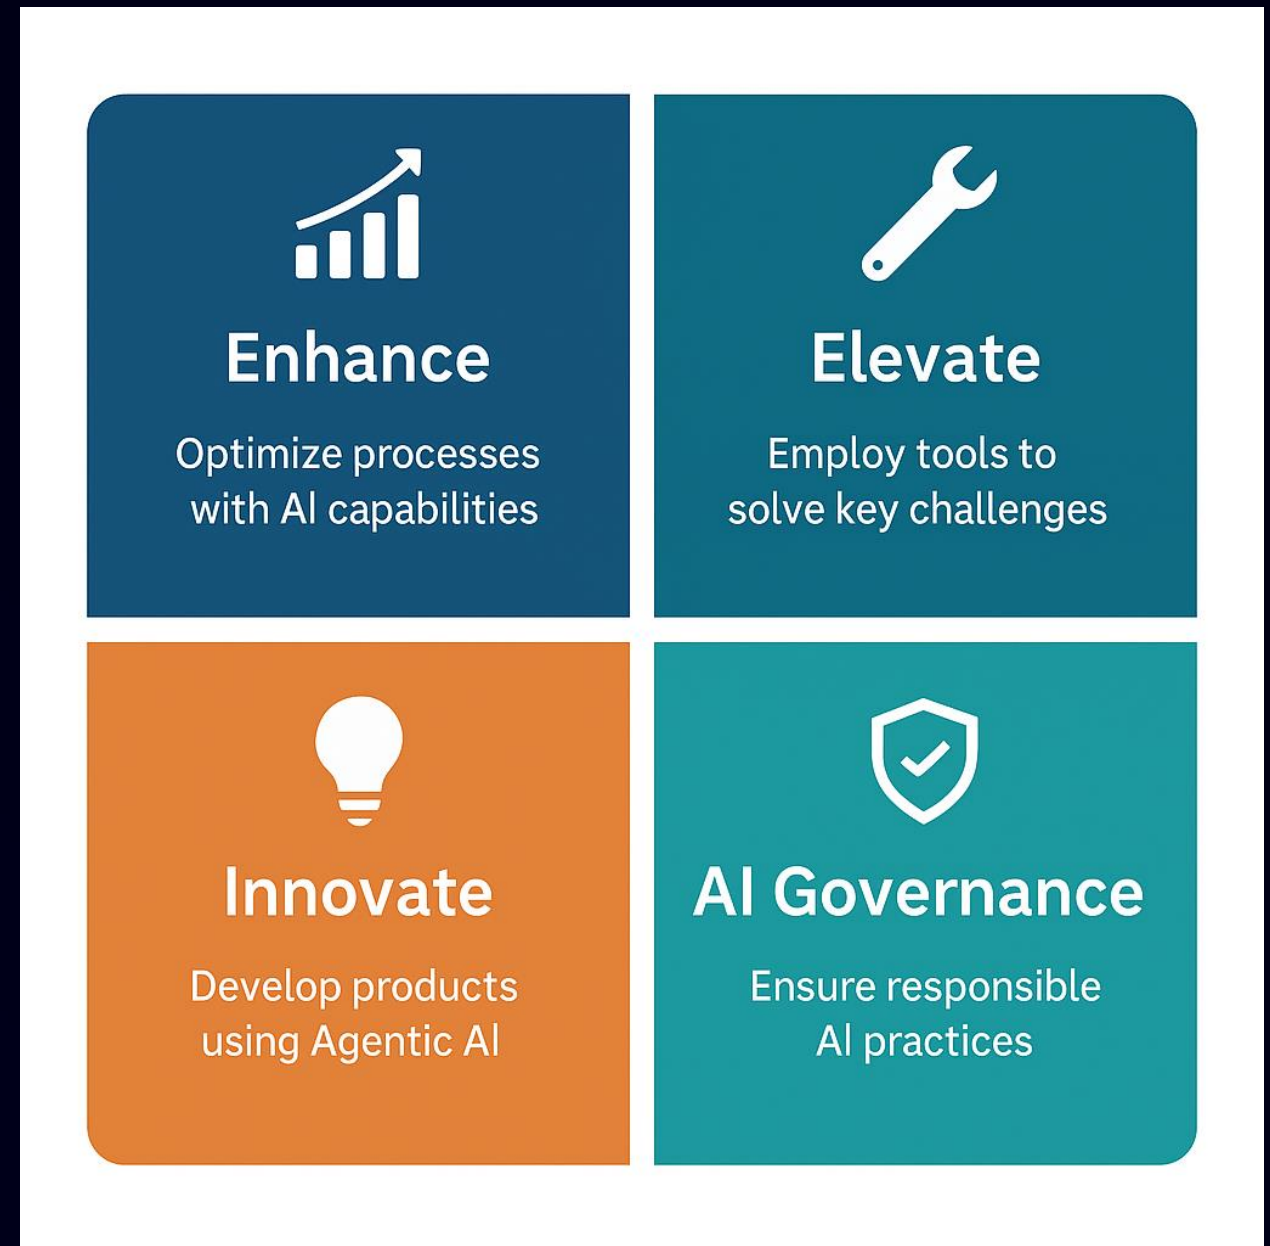

ACTION

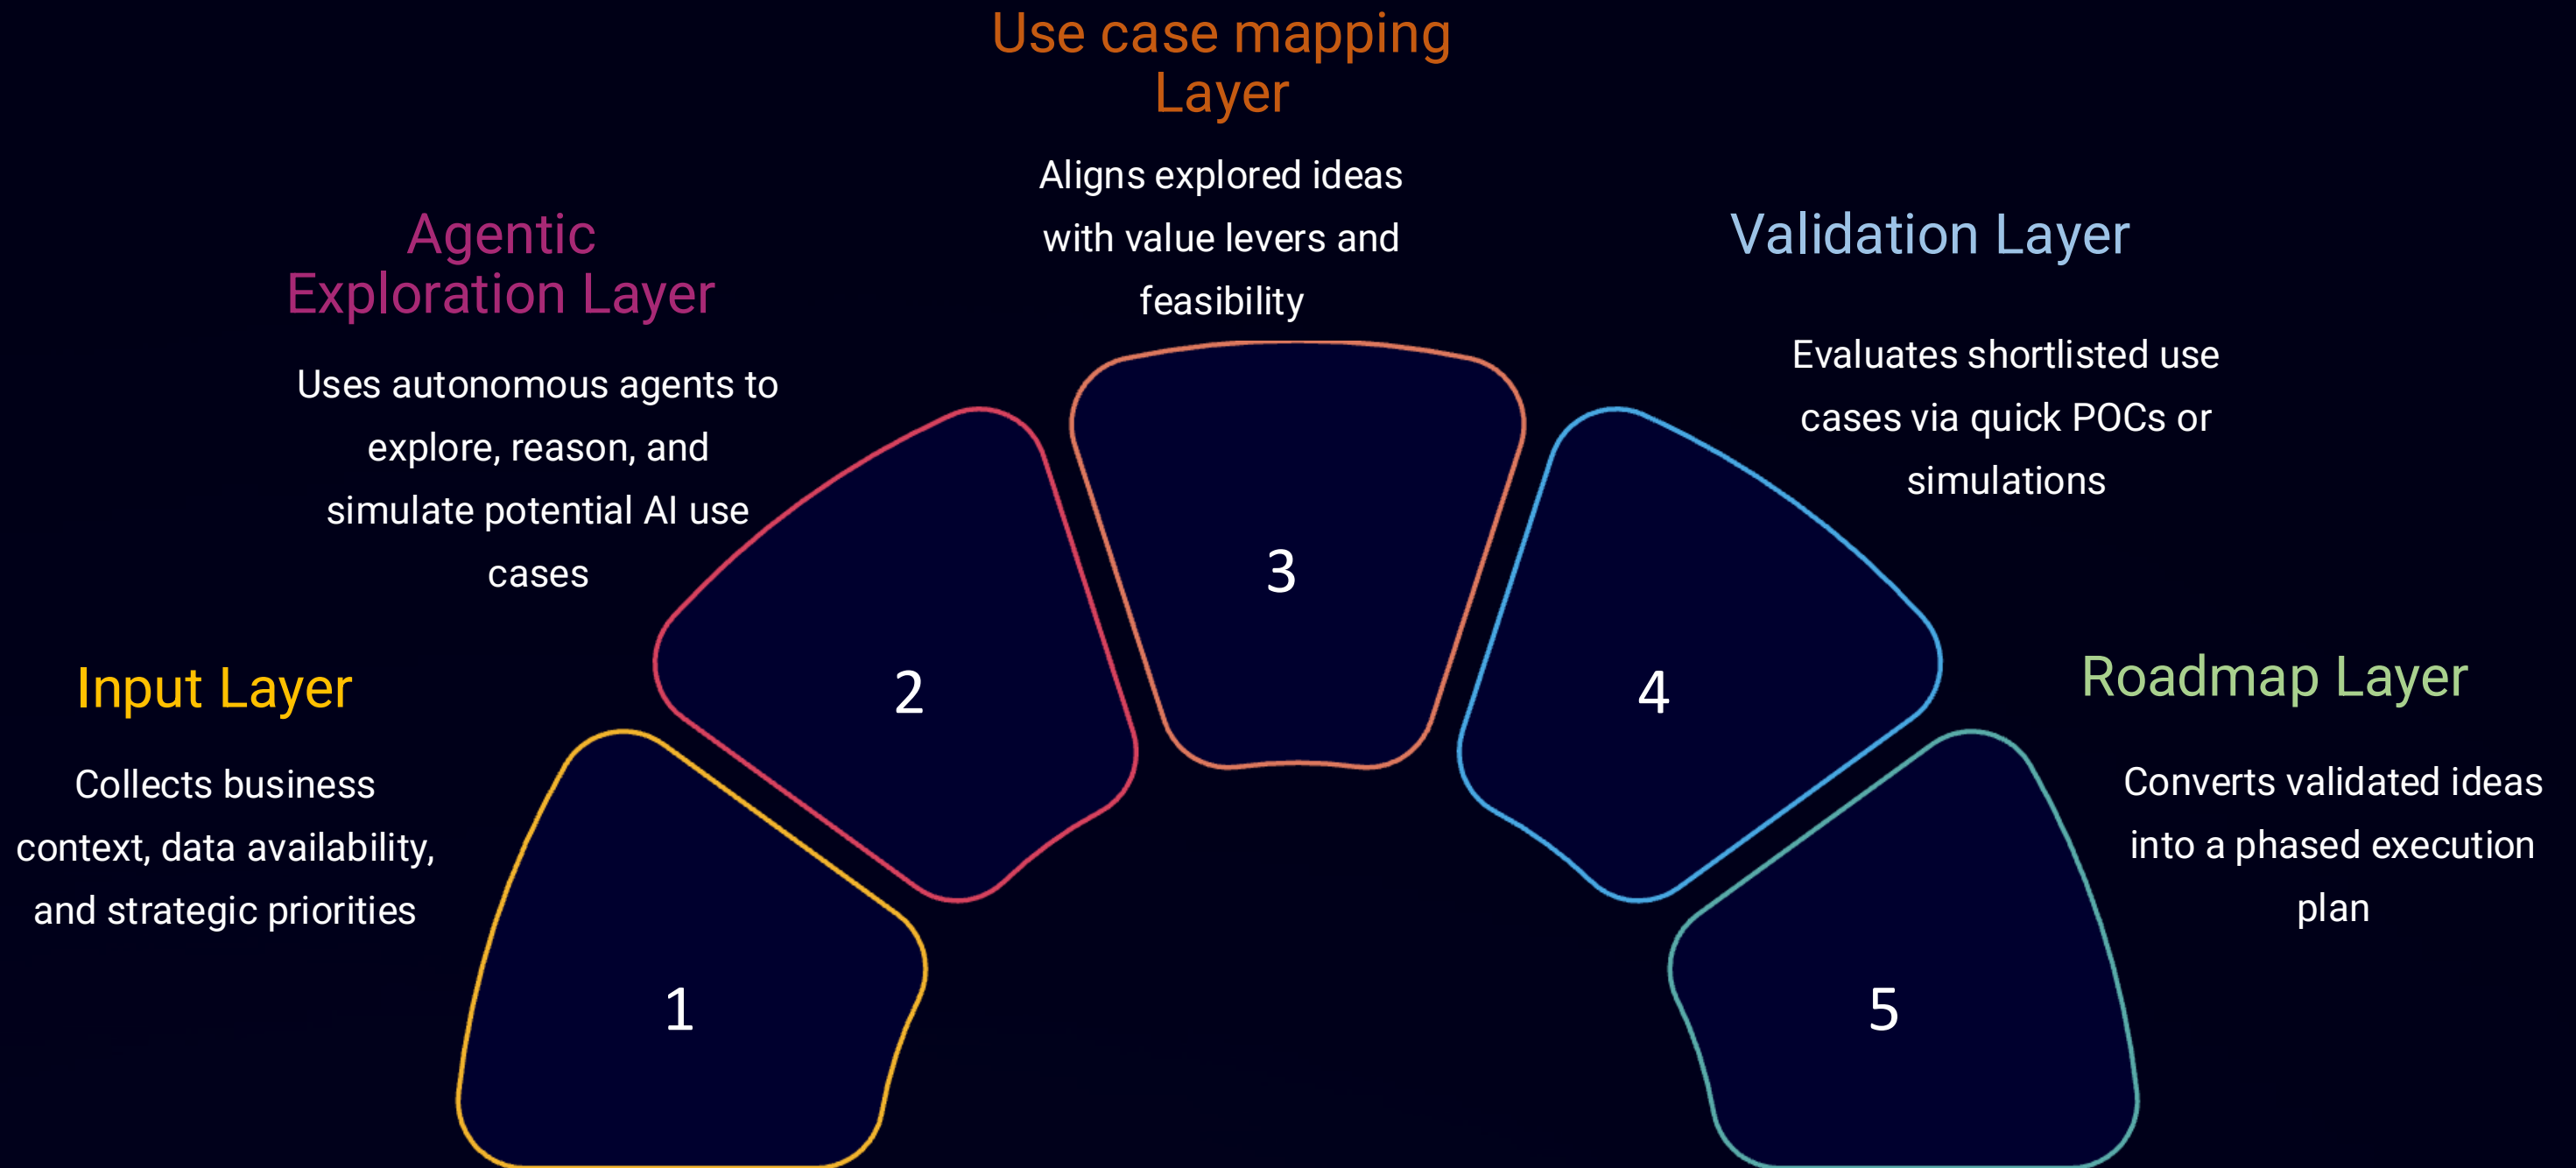

Validate, recommend, and roadmap key use cases

Framework Pillars Supporting VISTA

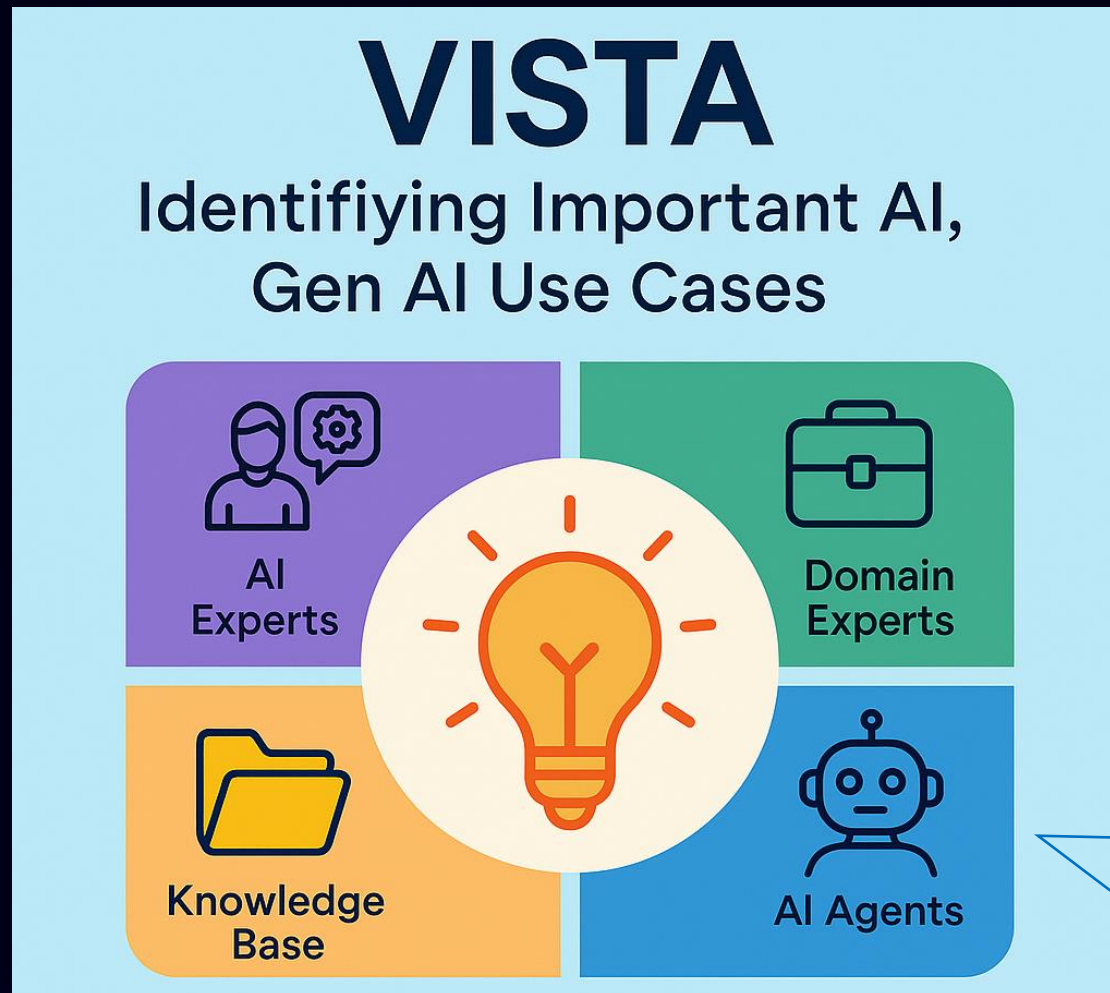

- **Enhance** – Automate repetitive tasks to boost productivity.
- **Elevate** – Use AI tools and platforms to improve operational efficiency.
- **Innovate** – Create next-gen solutions for smarter business processes.
- **AI Governance** – Ensure AI systems are safe, ethical and compliant.

VISTA Framework Architecture

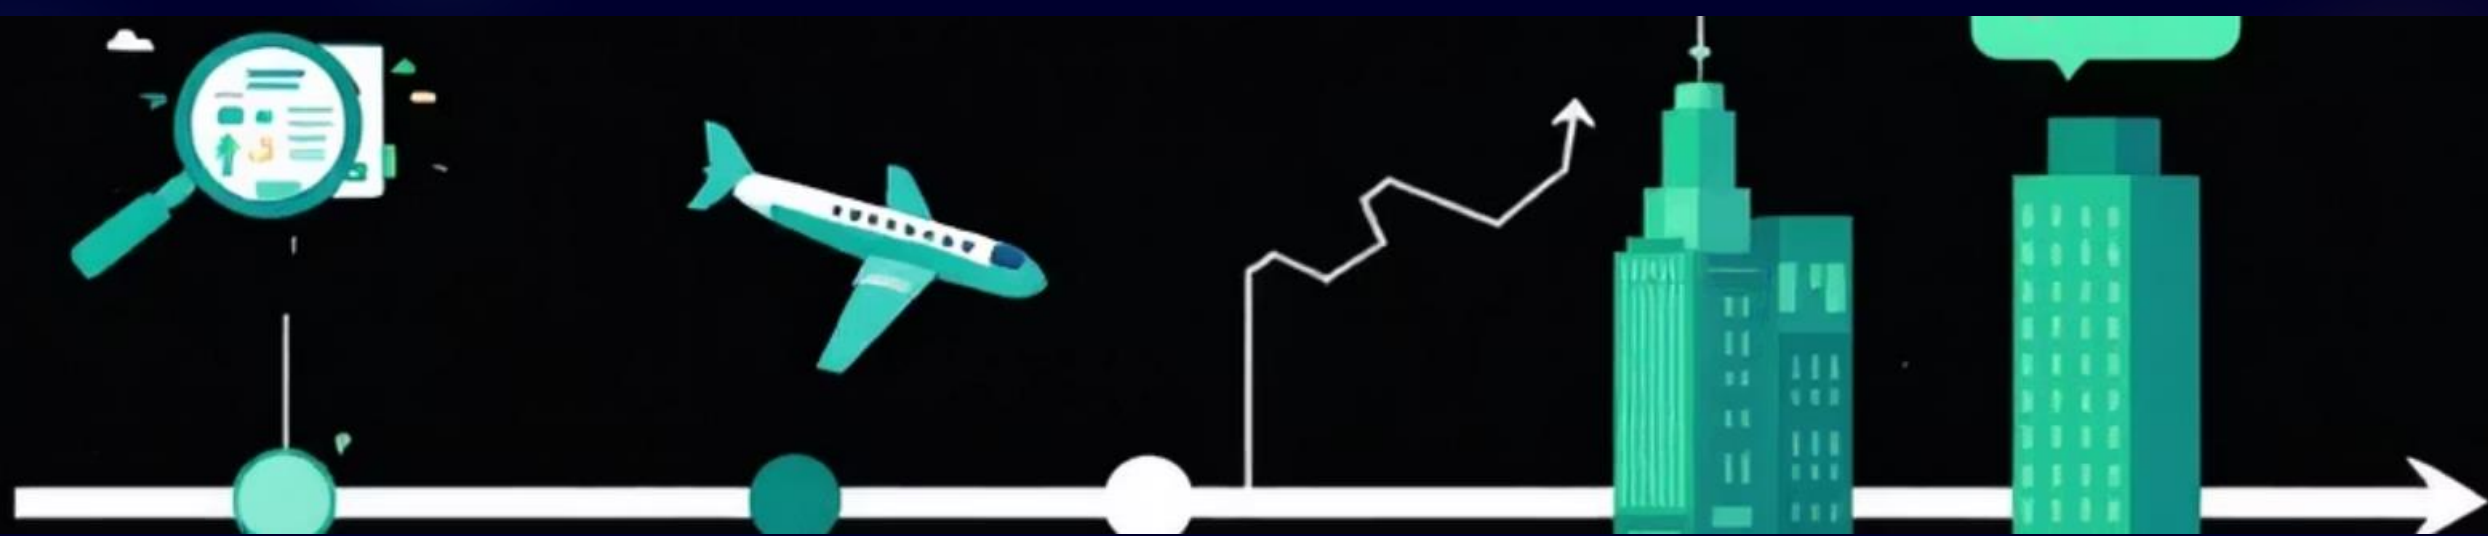

Core Capabilities of the Agentic AI Layer within VISTA

AI Agents Capabilities

- 🧠 Context-Aware Discovery
- 📖 Knowledge Retrieval
- 🔄 Iterative Simulation
- 🔍 Gap Identification
- 📈 Benefit Mapping
- 📊 Prioritization Suggestion

START YOUR 10-DAY AI DISCOVERY AT ZERO COST.

Day 1

Day 3

Day 6

Day 8

Day 10

Phase 1: Design & Setup

Understand client domain,
configure agent modules,
connect internal repositories

Phase 2: Guided Exploration

Run agent sessions across
business units to identify
opportunity areas

Phase 3: Use Case Repository Build

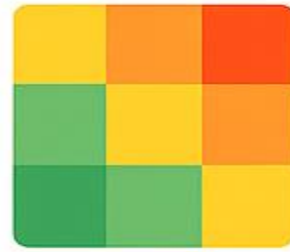

Auto-document explored use
cases, benefits, pre-conditions,
and data needs

What You Receive After 10 Days

Use Case Discovery Report

Use Case Discovery Report

Prioritization Heatmap

Use Case	Due Service Response
...	...
...	...
...	...
...	...
...	...
...	...
...	...

Risk & Gap Analysis

Item Name	Highly Sensitive	Regulatory	Team
Unlabeled Server	0	2	...
Third-party Service	8	9	...
Primary	8	5	...
Highly Sensitive	8	4	...
Marissa Degout Placement	9	1	...
DBM Risk Group	8	4	...
DEagleShamen.com	2	4	...

Actionable Roadmap

- 5 AI. Assessment & Ideation
- 6 Step 2
- 3 Step 3

Measurable Outcomes Delivered by VISTA Framework

Outcome	Description	How It's Measured
Use Case Catalog	Curated list of AI/GenAI use cases with context	# of validated use cases mapped to functions/domains
Prioritization Heatmap	Value vs Feasibility matrix to identify quick wins	Count of high-impact / low-effort use cases identified
ROI & Effort Snapshot	Estimates of cost savings, revenue uplift, or risk reduction	Projected ROI %, time to value, cost of delay
Transformation Roadmap	3–12 month phased execution roadmap	# of use cases ready for pilot vs scale
Enabler Gap Report	Identified gaps in data, skills, infra, governance	% of readiness score by area (data, SME access, tech)
Acceleration in Decision-Making	Faster buy-in through structured exploration	Time saved vs traditional discovery (e.g., 4–6 weeks compressed into 10 days)
Strategic Alignment Score	Use cases mapped to business KPIs and strategic goals	% alignment to key business priorities (e.g., cost, growth, risk mitigation)

From ambiguity to action — VISTA delivers clear, prioritized and value-driven AI opportunities, ready to execute.

Ready to Transform Your Business with AI?

The future of your business is now. Take the first step towards unlocking unprecedented efficiency, innovation, and competitive advantage with AI. Our 10-day complimentary program is your gateway to understanding how AI can specifically benefit your organisation.

Don't miss this opportunity to define your AI strategy with expert guidance and zero risk.

VISTA Framework: Adding Value

EXPLORATION

Identify AI use cases

IDEATION

Generate and refine ideas

ANALYSIS

Evaluate use case viability

TESTING

Assess risks and benefits

ACTION

Recommend key use cases
